Forecast for Thursday 10 Jun 2021

Weather: Dry with clear spells, perhaps rather more cloud towards the Monadhliath Mountains and to the southwest of the Plateau. Then some good spells of sunshine developing and, while most places remain dry, an isolated afternoon shower is possible.

Chance of cloud free mountain/hill tops above 800m: Around 60% in the west and southwest at first, otherwise around 90%.

Visibility: Occasional or periods of cloud above about 600m in the west and southwest at first, otherwise only small amounts of cloud expected below the summits. Away from cloud visibility very good, perhaps briefly reducing in any showers.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Gusts around 60-70mph over higher ridges and summits. Northern glen temperatures may reach plus 24 Celsius. Sunburn and dehydration possible in the strong June sunshine.

Forecast for Friday 11 Jun 2021

Weather: A rather cloudy, and a little cooler, day with a few showers around, best of any brighter or sunnier spells expected towards The Lecht and the Ladder Hills.

Maximum wind: Westerly or southwesterly 25-35mph, with gusts around 60mph over higher ridges and summits, easing 20mph in the evening.

Chance of cloud free mountain/hill tops above 800m: Around 75%, most of expected cloud above summits

Visibility: Occasional cloud above about 600m, especially across western or southwestern hills. Away from cloud visibility generally very good with brief reductions in or near showers.

Temperature: **Glens:** Plus 12 or 13 Celsius at dawn rising to plus 19 or 20 Celsius by day
At 800m: Plus 9 Celsius
Freezing level: Above summits
